May 1, 2008

ALLEGHENY COUNTY COUNCIL

Honorable President and Members
Allegheny County Council
119 Courthouse
Pittsburgh, PA 15219

'08 MAY 1 AM10:49

Dear Council Members:

Please find the attached resume of James E. Barrick, whom I am recommending for reappointment to the Air Pollution Control Advisory Committee.

The Air Pollution Control Advisory Committee currently operates under Section 2101.07 of Article XXI of the Allegheny County Health Department. The Committee recommends to the Board of Health additions and changes to the rules and regulations, and advises the Department and Board of Health on matters relative to the control of air quality in Allegheny County. I am recommending that Mr. Barrick serve another 1 year term, which will expire on December 31, 2008.

Mr. Barrick currently serves as Township Engineer for the Township of Neville. This allows the elected officials of the Township to receive reports and provide feedback from them on issues important to the area. Mr. Barrick earned his Master of Science and Doctor of Philosophy degrees in Civil Engineering from Carnegie Mellon University.

I appreciate your consideration, and ask you to act on this appointment as quickly as possible. Mr. Barrick will make himself available for review before the appropriate committee if members of Council wish to speak with him.

Sincerely,

Dan Onorato
Allegheny County Executive

James E. Barrick, Ph.D., P.E.

**EXPRESSION OF INTEREST
AIR QUALITY ADVISORY COMMITTEE**

Dear Mr. Thompson:

The purpose of this letter is to express my desire to continue my participation as a member of the Air Quality Program's Air Quality Advisory Committee. I was appointed to the Committee in 2003, primarily because of my association with Neville Township, which I have served as Township Engineer since 1989. Prior to that, I was appointed to the Program's Air Quality Education Subcommittee, on which I continue to serve.

As Neville Township Engineer, I have become well-versed in dealing with the public effects of adverse air quality and have developed some expertise in air quality monitoring. My committee participation has allowed me to keep my municipal associates aware of the importance of the Department's Air Quality Program. I provide my Board of Commissioners with reports of Committee meetings and activities, and receive feedback from them on issues of importance to the Township.

My educational background includes Master of Science and Doctor of Philosophy degrees in Civil Engineer from Carnegie-Mellon University and my professional practice beyond Neville Township includes application of hydrologic and hydraulic engineering technology to a wide range of engineering problems.

I hope that you will find my qualifications sufficient to continue my Committee membership. I await your response.

Respectfully submitted,
James E. Barrick, Ph.D., P.E.
Neville Township Engineer
